

*CDO delivers a **dependable** reputation in  
Cyber Operations Capabilities & Services*

Our *knowledge* and *expertise* on the full spectrum of offensive and defensive cyber operations puts us on the forefront of cybersecurity technology and services.

Our *dedication to training* the next wave of the cyber workforce makes sure we stay there.

# **CDO *delivers.***

- **Proven operational expertise in risk management framework to NIST, Intelligence Community, and DoD standards and mandates.**

CDO supports the Department of Defense network infrastructure with assured operating environments that provide mission awareness and resilient full spectrum capabilities.

- **An enhanced network of cyber professionals and an ecosystem of cyber talent built to strengthen our workforce.** Our CDO Cyber Education and Training program allows us to cultivate our own talent, training and certifying talented employees.

- **A mission first focus on systems engineering, systems integration, and mission assurance critical to the security of the nation.**

# CDO Core Competencies

## ***Defensive Cyber Operations***

### **Discover, Detect, Analyze, & Mitigate**

- CPT Squad & Mission Support
- Vulnerability Assessments & Penetration Testing
- Threat Response/Risk Mitigation
- Cyber Security Operations Center Support
- Cyberspace intelligence, surveillance, & reconnaissance (ISR)

## ***Cyber Security***

### **Build & Operate a Trusted Information Network**

- Risk Management Framework (RMF)
- Continuous assessment
- Command Cyber Readiness Inspection (CCRI)
- Secure data transmission & data sharing
- Cyber engineering & Cyber resilience

## ***Information Intelligence Systems & Analysis***

### **Processing & Exploitation**

- Multi-source analysis
- Architecture for massive analytics

## ***Cyber Workforce Training***

### **Strengthen, Grow, & Retain Cyber Professionals**

- Content, Curriculum, & Course Development
- Exercise & Cyber Range support
- Technical Certification and Technology Training
- Cyber Operations training, assessment & technique development

## ***Cyber Operations***

### **Freedom of Maneuver in Cyberspace**

- Command & Control (C2) Support
- Intelligence Support
- Cyberspace Operations Planning
- Sustainment & Protection

## ***Cyber Science & Technology***

### **Enhancing Cyber Capabilities, Processes, & Best Practices**

- R&D
- Lab testing & support
- Integration of Cyberspace Fires/Capabilities
- Cyber capability onboarding

## KEY INFORMATION

- + 300 personnel; 85% + with Security Clearances
- + ISO 9001:2008 certified
- + CMMI Level 2 Dev

## PRIME CONTRACT VEHICLES:

- + Responsive Strategic Sourcing for Services (RS3)
  - C4ISR and knowledge based professional engineering services mission requirements
- + NETCENTS II NetOps SB
  - Cyber Support Services (CSS)
  - Air Force Research Lab Rome Remote Site (ARFL RRS)
  - Air Force Space Command Cyberspace Support Squadron (CYSS)
  - Cyber Security Mission Assurance Support
  - Virtual Data Center (VDC) Infrastructure as a Service (IAAS) and Managed Services for AFPOA
- + AIT V
- + TDSSe
- + FAA -eFast
- + SeaPort e
- + GSA Schedule 70

*CDO Technologies delivers  
expert cybersecurity for you.*
